

Red Sea - Dead Sea Pipeline

SHEET 8

Use the co-ordinates to plot the route of the pipeline on the map. Then answer the questions below.

<p>1. Describe the route that the pipeline follows.</p>	
<p>2. List and explain one economic, environmental, physical and political factor behind the route.</p>	<p><u>Economic</u></p> <p><u>Environmental</u></p> <p><u>Physical</u></p> <p><u>Political</u></p>
<p>3. Plot the hydroelectric power stations. Use map to explain why you think they will be built in those locations. Hydro 1 - (353,305) Hydro 2 - (353,306) Hydro 3 - (358,312)</p>	
<p>4. Using your digital map, or your paper map with the help of an atlas, describe one physical feature and one human made feature that the pipeline follows and suggest one reason engineers decided to follow each one?</p>	<p><u>Physical Feature:</u></p> <p><u>Human Made Feature:</u></p>
