Field Studies Council - Order fold-out identification charts, guides, school resources, handbooks and journals

www.field-studies-council.org/publications/index.aspx

'Moorland Plants' chart - suitable for students (14+) carrying out fieldwork in moorland or heathland, such as wet-dry transects, surveys of heather management and studies of heathland succession. The key uses non-flowering parts of the plant and should be applicable at most times of the year, even when plants are not in flower.

Scottish Natural Heritage - activities for your class – primary secondary and biodiversity

www.snh.org.uk/publications/on-line/Education/schoolsOutPeatlands.asp

Peat bog pack - this A4 loose-leaf folder is full of factual information and activities designed to introduce students and teachers to the wonders of peat bogs. The pack includes clear 5-14 and secondary school curricular links, good fact sheets - which include some historical case studies - and well presented food web diagrams to help teachers and pupils understand the importance of this little known habitat. The activity sheets include simple ideas to bring a bog to life in the classroom! Also available is the website compiled by Scottish Natural Heritage to accompany the Wild, Wet and Wonderful touring exhibition.
