

## Vampire Hunters' Guide

---

Know your enemy...

Your enemy will be around during the day, but it is easier to track down at night.

Wait until dark and go into different rooms in your house, and look out for the glowing red or green 'eyes' of the energy vampire. These will give it away.

Slaying the vampire is easy: remove the plug from the wall (warning: don't do this with the fridge or your parents will not be pleased)

Where did you find the most vampires, this is probably their lair. You will need to keep a close eye on this area over the next few days to make sure that the vampires don't return.

Vampire location	Vampire value
Living Room	
Kitchen / Utility	
Dining Room	
Hallway	
Bedroom 1	
Bedroom 2	
Bedroom 3	
Garage / Shed	

Write a report for the Chief Vampire Hunter

Dear Van Helsing

I would like to report....

I found the vampires in these locations..

I slayed the vampires by...

My recommendations are....
