

Risky World

Here are a set of simplified maps, showing hotspots of high risk from different dangers.

Risky World: 1

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

Malaria Risk Areas 2005

Risky World: 2

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

Adult HIV prevalence rate 2005

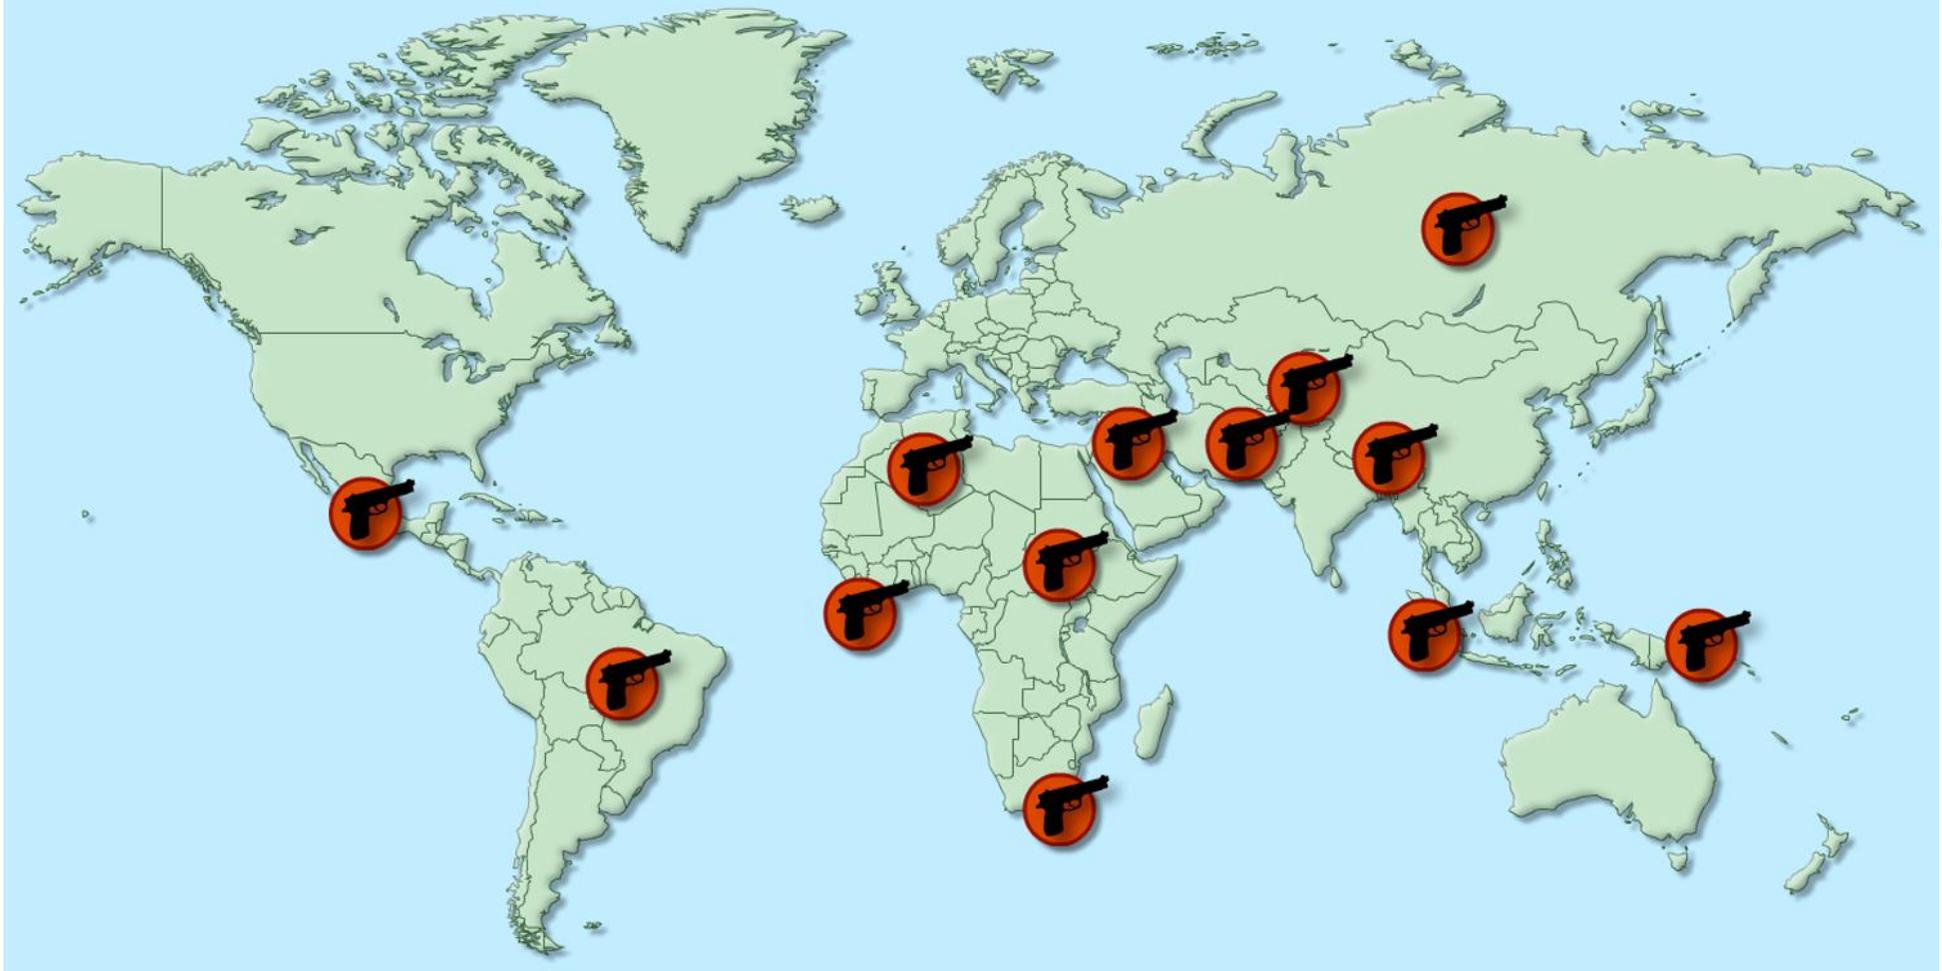

High Medium Low Very low

Risky World: 3

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

Over 5 gun deaths per 100,000 population in 2005

Risky World: 4

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

Conflict 2005

Risky World: 5

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

High mortality risk from drought

Risky World: 6

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

High mortality risk from drought, flood, cyclone and landslide hazards

Risky World: 7

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

High mortality risk from earthquake and volcano hazards

Risky World: 8

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

High mortality risk from earthquake, volcano, flood, cyclone and landslide hazards

Risky World: 9

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG

High mortality risk from flood, cyclone and landslide hazards

Risky World: 10

The DCSF supported Action plan for Geography is delivered jointly and equally by the GA and the RGS-IBG
