

Importing water, exporting drought?

Lesson 2: Discussion Activity

Work in groups of four

- First, write a statement to answer each question.
- Secondly, share your statement with the person sitting next to you.
- Finally, as a group discuss what the broad similarities and differences are between your various viewpoints.

Activity 1: What do you think is the greatest challenge the world faces?

[You might choose from: climate change, energy security, food shortages, water security, treatment of workers in emerging economies, loss of biodiversity, conflict & terrorism, HIV, swine 'flu, or any other geographical issue you feel strongly about.]

Activity 2: What reasons support the choice you have made?
