FORWARD ON THIS PROJECT - WHAT IS TUTORING?

Entrepreneurial Tutoring
Project

Secondary school closures and the transition to online learning, in the context of Covid, has exacerbated educational inequality for many school-age pupils. The UK Government responded by setting up the National Tutoring Programme which aims to provide high- quality tutoring to secondary pupils affected by school closures. And they're now recruiting tutors...

Tutoring is a form of teaching in a one-to-one or small group setting that supplements a students schooling.

WHAT IS TUTORING?

The National Tutoring Program has been developed to give tutoring to students who were impacted by school closures during COVID-19 lockdowns.

You can tutor the subjects you study at University or studied in High School - sharing your passion for your favourite subjects!

There is a huge demand for tutors at the moment to support students to get back on track with their education.

WHY TUTOR?

1

Making a difference to a young person's education

2

Support those most affected by school closures

3

Support someone else to get the most out of the education system as you had

4

Be a positive role model

5

Share your enthusiasm for your subject

5

Gain valuable experience and develop your CV

6

Put your skills in online learning to good use by becoming an online tutor
