

***I-Spy the Olympic Park!**

From the top of the Stratford Shopping Centre there is a great view of the Olympic park and how the development is progressing.

Look at the laminated plan of the Park and see if you can work out where the different features will be. Your Ordnance Survey map of the area will show you what was there before. Look out for the new Stratford International Station and Channel Tunnel rail link too.

***Spot the Difference – how has the Olympic Park changed since this time last year?**

Work on the Olympic Park is progressing fast now. Take a look at the photos taken in February 2007. Can you see any major changes to the site since then?
