

Day and night

Copy and complete using the word bank at the bottom (you will not need all of the words).

Shade your globe to show where it is day and where it is night.

Our planet spins or from to .

It takes hours for one spin, we call this one .

Anticlockwise

West

24

Day

Day here.
The Earth receives light from the sun.

Night here.
As the Earth shadows the sun.

Clockwise

East

48

Extension:

Explain what happens when the moon moves between the sun and the Earth. What do we call this?
